

Complete AP Automation with Tipalti Accounts Payable for SAP Business One

The most comprehensive global AP solution for SAP Business One

Tipalti Accounts Payable includes fully integrated API-based integration for SAP Business One. Now you can simplify AP workflows and finally have the time to focus on what matters most to your business.

Robust Global AP Capabilities

Multi-Entity Management

End-to-End Automation

Total Spend Visibility

Built-In Tax and Regulatory Controls

Extend to Procurement, Card, Expenses & Treasury

Robust Global AP Capabilities

- Pay in 200+ countries and territories, 120 currencies, using 50+ payment methods, including Tipalti Card
- Multi-language invoice management, capturing invoices in 145+ languages
- Global e-invoicing
- Make FX transfers between global entities and hedge FX risk
- Secure and fully regulated payment infrastructure in the US, Canada, UK, and EU

Multi-Entity Management

- Streamlined control across all business entities in SAP Business One
- Configure entity-specific workflows for supplier onboarding, payments, tax, and approvals
- Consolidate spend visibility across entities, currencies, and payment methods
- Sync payment data to SAP Business One sub-ledgers for streamlined reconciliation

End-to-End Automation

- Suppliers, invoices, cards, and payments all managed from one place
- Self-service supplier management

Total Spend Visibility

- Sub-ledger and entity-level financial tracking with deep SAP Business One integration
- Capture spend data across entities for faster reconciliation

- Automated invoice capture with Invoice Capture Agent and Invoice Scan Agent
- Two- and three-way PO-matching with automated tolerance thresholds
- Invoice approvals with AI routing and predefined workflows, plus support for email approvals
- Integrated card solution for invoices, expenses, and recurring payments

- Consolidate spend data from multiple entities into a unified HQ view
- Sync SAP Business One-specific features, including posting periods and custom fields

Built-In Tax and Regulatory Controls

- Financial, tax, and regulatory compliance with enhanced data security and audit trails
- KPMG-approved tax engine compliant with US, UK, Canada, and EU regulations
- Collect and validate supplier tax IDs across 60+ countries and against 3,000+ rules
- Proactive fraud monitoring and sanction screening
- Platform security with SSAE 16 SOC, ISAE 3402 Type II certification, and encrypted storage

Extend to Procurement, Card, Expenses & Treasury

- Manage all procurement and employee expense workflows from one dashboard
- Process global supplier and employee payments through a unified platform
- Access unified data across Procurement, AP, and Expenses
- View real-time cash positions and automate cash flow forecasting

Tipalti's Impact

Up to 80%
reduction

in AP processing time

Up to 50%
faster

book close

Up to 66%
reduction

in payment error rates

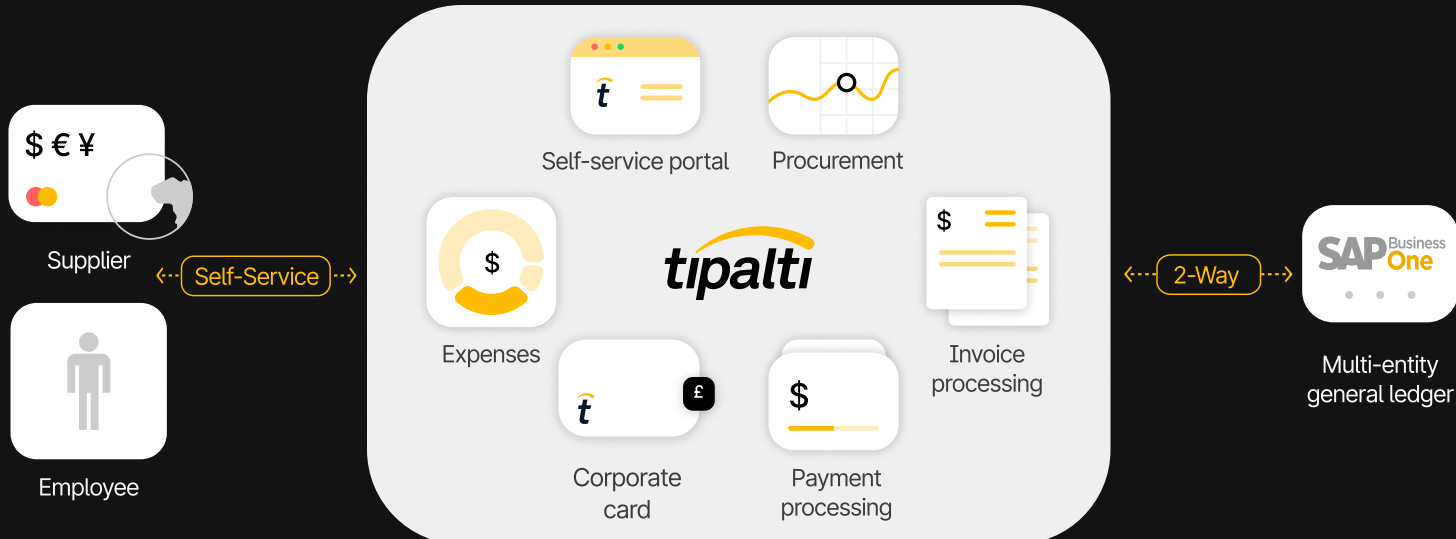

*Data derived from Tipalti customer case studies and internal research

“The vendor portal really clinched it for us. Tipalti simplified our operations and eliminated the chaos surrounding monthly vendor payments.

David Metz
EVP of Finance, EliteStaffing
